## Technical Data Sheet

# MM-Degreaser Z MM-Degreaser C

### Product description

MM-Degreaser Z and MM-Degreaser C are universal solvents for degreasing metallic, plastic and other surfaces.

Before the application of PolymerMetals there is mostly a surface preparation of the concerned work piece required to evoke a good bonding between the PolymerMetal and the ground material. Along with those requirements goes the cleaning of the surface. Here we recommend the use of MM-Degreaser Z or MM-Degreaser C.

Both degreasers offer a high degreasing potential against grease and oil and do facilitate a wide range of application.

MM-Degreaser Z and MM-Degreaser C can be applied by brush.

### Technical data for MM-Degreaser Z

Consistency:	liquid
Colour:	colourless
Smell:	sharp, alcoholic
Viscosity at 20 °C:	2,43 mPas
pH-value:	neutral
Flash point:	13 °C
Density at 20 °C:	0,785 g/cm <sup>3</sup>
Features:	easy flammable; low flash point; quick evaporation

### Technical data for MM-Degreaser C

Consistency:	liquid
Colour:	colourless
Smell:	similar to ether
Viscosity at 20 °C:	1,8 mPas
pH-value:	neutral
Flash point:	> 61 °C
Density at 20 °C:	0,785 g/cm <sup>3</sup>
Features:	not flammable; high flash point; slow evaporation

### Working security

Avoid eye and skin contact. In case of skin contact, wash thoroughly with soap and water. In case of eye contact, rinse thoroughly with water.

### Storage

MM-Degreaser Z and MM-Degreaser C can be stored for at least 5 years. The materials do not lose their high quality performance after repeated openings of the containers.

### Order information

No.	Product	Unit
10	MM-Degreaser Z, liquid	1000 ml
11	MM-Degreaser Z, liquid	250 ml
24	MM-Degreaser C, liquid	250 ml

### Availability

Technical data sheets are generally available in German or English language. MM-Degreaser is only produced in Germany and delivered worldwide within short time by MultiMetall. In addition to that our products are internationally available from many MultiMetall-partners. Ask for further products from MultiMetall.

### Note

The product information and instructions provided in this leaflet were prepared to the best of our knowledge and serve information purposes only. We recommend that appropriate tests are carried out prior to application in order to ensure that the products and methods fulfil the purpose desired by the user. In this procedure, the given data may serve as a basis. Application and processing of the products lie outside our possible control and are therefore the sole responsibility of the user.
